

UNGERS

SINCE 1903

MARCH 24, 2020 • As an essential service provider, Unger Feeds and Unger Meats remain open to serve you. With information being communicated on a nearly hourly basis, rest assured that we are taking this situation very seriously, and also taking things day-by-day. We will continue to update you here with any new updates as we are informed.

In addition to the high health standards we are held to and practice, the Unger Group of Companies is taking extra measures for sanitization in light of COVID-19 and following the recommendations of Manitoba Health and Health Canada.

In order to keep our customers, employees and suppliers safe, and continue uninterrupted service we have implemented the following safety measures:

- Frequent sanitization of all high touch point surfaces;
- Our staff is following a very rigid and frequent hand washing or hand sanitizing policy;
- Providing our customers with visual floor guidelines within our store in order to respect the social distance mandate.
- Offering curbside pick up for our customers. This means giving them the option to call or email in orders, pay for them over the phone and have them brought out to their vehicle upon arrival.

We would also like to remind our customers that if you are not feeling well, or if you or anybody in your household has recently travelled outside Manitoba, please to remain home as per Provincial and Federal recommendations.

We are all in this together and we want to ensure that everyone remains safe yet taken care of. Please contact us if you have any questions or concerns, or if we can in any way assist you with our products or services.

Respectfully,

The Management Team
